

# Gaurav Ghati

Irvine, CA 92612 | (949)-620-9336 | [gghati@uci.edu](mailto:gghati@uci.edu) | [gauravg.in](http://gauravg.in) | [github.com/gauravghati](https://github.com/gauravghati)

## EDUCATION

### University of California, Irvine

Sep 2023 – Dec 2024 (Expected)

Master of Computer Science, GPA: 4/4

*Irvine, California*

Courses: Advance Operating Systems, Advance Data Structures, Machine Learning, Algorithms

### Pune Institute of Computer Technology

May 2018 – Jun 2022

Bachelor of Engineering in Information Technology, GPA: 9.21/10

*Pune, India*

## TECHNICAL SKILLS

**Languages:** C++, Java, JavaScript, Python, Bash

**Tools:** Git, Unix/Linux, AWS EC2 and S3, Docker

**Frameworks:** SpringBoot, Django, Node.js, React.js

**Databases:** MySQL, MongoDB, CouchBase

**Technologies:** ElasticSearch, Hadoop, Hive, Apache Kafka, Apache Spark, RabbitMQ, Kibana, Tableau, PowerBI

**Certifications:** [SAFe 5 Practitioner](#), [Java Programming](#), [Sequence Models](#), [Natural Language Processing in TensorFlow](#)

## EXPERIENCE

### Bank of New York Mellon

Jul 2022 – Aug 2023

Software Engineer

*Pune, India*

- Worked on the backend of an electronic signature application using **Java SpringBoot**. This application is utilized by over 60,000 individuals, including company employees and clients to facilitate digital document signing.
- Leveraged **Apache Kafka** to manage incoming continuous data streams, consumed by multiple microservices. Used Oracle MySQL to store user and document data and **Amazon S3** for efficient document storage and retrieval.
- Adapted scrum/agile practices to enhance **CI/CD**, increase code coverage of Java projects by 60% using **JUnit** and **Mockito**, and resolved over 100 production bugs and vulnerability issues as part of production maintenance.

### Veritas Technologies LLC

Aug 2021 – May 2022

Research Project Intern | [Github](#)

*Pune, India*

- Devised an NLP text classification model based on **LSTM** and Google's LLM - **BERT** for auto-matching relevant documents. Used rehearsal techniques for effective training, preventing memory loss issues while training model.
- Improved incremental learning accuracy by **45%** by writing a ranking algorithm prioritizing uncertain documents.
- Developed this web application using **Django** REST APIs in Python and **React.js**, the backend was **dockerized** and deployed to **AWS EC2** servers ensuring scalable and efficient access to the application.

### Indian Institute of Management, Ahmedabad

May 2019 – Jul 2019

Summer Project Intern

*Ahmedabad, India*

- Contributed to a finance education website using **HTML**, **CSS**, and **Javascript**. Conducted data visualization using Python's **pandas**, **matplotlib**, and **seaborn** libraries on information sourced from public APIs.

## PROJECTS

### Dynamic Thread Scheduler | *Operating Systems, Linux* | [Github](#)

Oct 2023 - Nov 2023

- Implemented thread scheduling in **C**, including thread structure creation and dynamic stack memory allocation.
- Created **Round Robin thread scheduling** using a Circular Linked List and achieved concurrent non-parallel execution by context switching between threads with **setjmp()** and **longjmp()** **kernel** system calls.

### Credenz Website Backend | [Github](#)

Oct 2020 - Feb 2021

- Designed backend APIs using **Node.js** / **Express.js** for Credenz's website (technical fest), These APIs were used by 8 other event apps to get live updates of the technical fest. In total, it was used by over 1800 participants.
- Include features like user registration, booking tickets for technical events, payment gateway, etc. Implemented middleware authentication, **OAuth2**, **JWT**, and **MongoDB Cloud** for streamlined and secure data handling.

## LEADERSHIP AND CO-CURRICULAR ACTIVITIES

- Served as a technical head of PICT IEEE Student Branch (PISB) for more than three years.
- Contributed to a few open source projects like C++ based machine learning library (MLpack) and Mozilla website.
- Written technical blogs on [medium.com/@gauravghati](https://medium.com/@gauravghati) on topics like Natural Language Processing(NLP) models.
