

Indian Institute of Management, Ahmedabad

Recommendation Letter for Mr. Gaurav Ghati

I had the pleasure of knowing Gaurav Ghati during his work as a Summer Intern at the Indian Institute of Management, Ahmedabad (IIM-A) during May-July 2019. Gaurav assisted me with creating a website and automated the process of fetching data from various sources during his internship at IIM-A.

Gaurav was primarily responsible for the design for the website, and web page design and development. He developed the basic structure of the software for downloading data from APIs. His work was of high-quality and he performed these tasks in a timely manner. Along with being technically proficient, he is also an eager and fast learner. He learnt new techniques that were necessary for the project, including web development and greater knowledge of Python, within a very short span of time.

His demeanour and approach to work is quite professional. He is very responsive, diligent, and careful about his work. As part of his internship at IIM-A, he created user-friendly, well-written documentation and reports, which were extremely useful for a non-technical person like me.

Gaurav has a strong academic background with a CGPA of nearly 9 out of 10. He has a deep interest in research and analysis in the field of Computer Science. Moreover, Gaurav has a pleasing personality and is a joy to work with. I was impressed by his strong work ethic, resourcefulness, and analytical skills. He has demonstrated capability to work under tight deadlines while maintaining high standards.

I strongly recommend Gaurav Ghati and I sincerely believe that he will prove to be a valuable asset for your organization.

Yours Sincerely,

Sanket Mohapatra (Ph.D., Columbia University)
Associate Professor, Economics Department
